Ms. Jennifer L. Wiley
The Boeing Company
4501 Conant Street
Long Beach, CA 90808

Dear Ms. Wiley::

TENTATIVE ORDER - TERMINATION OF WASTE DISCHARGE REQUIREMENTS FOR THE BOEING COMPANY (FORMER BOEING COMPTON FACILITY), 233 E. MANVILLE STREET AND 157 E. STANLEY STREET, COMPTON, CALIFORNIA (ORDER NO. R4-2005-0068, CI-8974)

On October 6, 2005, the Los Angeles Regional Water Quality Control Board (Regional Board) adopted Waste Discharge Requirements (WDR), Order No. R4-2005-0068 for discharge of treated groundwater at former Boeing Compton Facility located at 233 E. Manville Street and 157 E. Stanley Street, California

On July 2, 2010, Leighton Consulting, Inc., on behalf of the Discharger, notified this Regional Board, via an electronic mail, that all the activities conducted under this WDR were completed in December 2009, and requested termination of WDR Order No. R4-2005-0068. Regional Board staff verified this, by reviewing the file and data, and determined that WDR Order No. R4-2005-0068 is no longer needed.

In accordance with administrative procedures, this Regional Board, at a public hearing, will consider the enclosed tentative Order, which, in part, will terminate WDR Order No. R4-2005-0068. The hearing will be held on September 2, 2010, at Metropolitan Water District of Southern California, 700 North Alameda Street, Los Angeles, California and will begin at 9:00 a.m.

In order to be fully evaluated by Regional Board staff and included in the Board's agenda packet, written comments must be received at the Regional Board office by 5:00 p.m. on August 13, 2010. Failure to comply with these requirements is grounds for the Board to refuse to admit the proposed written comment or exhibit into evidence. Timely submittal of written comments is encouraged to ensure that all comments are accurately and fully included in the administrative record, that Board staff is able to provide a timely review, and that Regional Board Members have sufficient time to give full consideration to the comments and issues raised.
